Why We Are Different

Before viewing our pricing, here are three things that make **Elegant Productions** an Award Winning company.

First, we are a husband & wife team who **both** work full-time as videographers. We will both shoot your entire wedding regardless of the package you book.

Secondly, because we always include the **full ceremony** and all **reception formalities**, our all-inclusive packages are the best overall value. We will also include any other pre-requested special events of your day at no cost.

Thirdly, we take as much care in recording your **audio** as we do in capturing your video. The audio is half of your product. It needs to be excellent, and our audio is.
